The First Thru-Hike Guide

Alder Trail Co.

1. Pick a trail and a start date

Choose a trail that fits your time off. Start when the weather window opens.

2. Plan resupply

Mail boxes to towns with few stores. Buy as you go everywhere else.

3. Keep your base weight low

Shelter, sleep system, and pack are the big three. Cut weight there first.

4. Your first week

Walk short days. Look after your feet. Eat more than you think you need.
